Loaning

Money On

WASHINGTON, D. C., THURSDAY, MARCH 2, 1893-TEN PAGES.

TWO CENTS.

About Washington Real Estate.

In referring to the marvelous and unprec-edented growth of Washington, we feel that we can add nothing to the brilliant that we can add nothing to the brilliant remarks made by the Congressmen. Representatives and prominent business men at the recent banquet given by the "Washington Board of Trade." One of them said: "Washington is surely destrued to be the most beautiful city on the habituole globe." Continuing, he said: "We must not think it belongs to Washingtonians alone, for the 65,000,000 of American member have a proprietary interest in it as people have a proprietary interest in it as their nation's capital." Washington is fast becoming (if it is not already) the center of science, fashion and literature. It is hard to realize the rapid growth of Washington. Where but a decade ago the crack of the sportsman's rifle was heard there stands today some the most fashiou-able and palatial residences to be found in

America.

It has been predicted that Washington will double its population within the next en years - a prediction fully warranted by the past ten years.

INVESTMENTS IN REAL ESTATE MAY BE DIVIDED INTO THREE CLASSES.

First. Vacant ground in large and small quantities, either in the city or adjacent to it, which is steadily increasing in value, Second. Improved property that is well rented, paying a fair interest on the amount invested, and at the same time increasing in

amount of money in a business property paying a good percentage on the money in-vested. This class of property is very desirons for estates and capitalists who prefer steady income rather than a specula Under these three heads I present the fol-

lowing, taken from my books, to which I invite your attention, and which I feel safe in recommending as being in every way all they are represented to be.

CLASS 1-VACANT GROUND.

187 acres of land within the 3-mile circle of the city's center, possessing very valuable possibilities in more than one direction, and will beyond doubt largely increase in value. Land no better in any respect in the northwest and northeast of the city in the same relative distance is held at from fif-teen to twenty thousand do lars an acre. The property I am now offering for sale can be bought for \$800 per acre, and will in a short time be worth as much as any acre-age property in the vicinity of this city. A email cash payment and deferred payments at 5 per cent on long time will be accepted.

Tract of ground situated at the head of 16th street and Meridian Hill, overlooking the entire city, the Potomic river, and the hills of Maryland and Virginia. Has a frontage of more than 350 feet on 16th street by a depth of 150 feet fronting directly m the new Hancock Circle. This is a mag nificent piece of property which as the city develops will more than double in value and prove to be the most beautiful resident site in the city. This piece of property I can sell for \$3 per sq. ft.

CLASS 2_BUSINESS PROPERTY.

9th. More people pass this corner than any other one in the city. The building has a frontage of 45 ft. by a depth of 113 ft. and opens in the rear on to a 20-ft. pavel alley. It is occupied by the best of tenants and the rentals amount to about \$6,000 per annum. The location is such as to make it absolutely sure that this property will increase in value, while the present rental pays a very fair income on the price at which the property can now be bought-namely, \$130,000.

Very snug little piece of business prop situated on the corner of 12th and G sts. n.w., having a frontage of 25 ft. on G st. by a depth of 96 ft. 11 in. on 12th st., being one of the most desirable corners in the business center of the city, bringing a rental of \$2,700, and can be bought for

CLASS 3-INVESTMENT PROPERTY.

The largest business house in the city, sitated on a prominent corner, valued at about \$500,000. This property I can sell to any one who will give to the present owner along lease. The owner (occupant also) will pay G per cent net per annum on the total cost of the building and ground in addition to insurance and taxes. &c., and is abundantly able to give satisfactory guarantee as to his responsibility. The price at which this property can now be purchased is probably about one-baif, as far as the ground is concerned, of what it will be worth at the expiration of this lease. There can be no better building for a safe invest-

We have other property on our books with an equally attractive prospective future. JOHN B. WIGHT. Real Estate and Insurance.

REAL ESTATE Those who have property to pay for, mortgages pay off or contemplate building should inquire into the terms and advantages furnished by the Equitable Co-operative Building Association.

FINANCIAL

Money is loaned in any amount desired Seven years and three months is given the borrower to return the principal and inter-est, in monthly installments. At any time before, however, settlements on a lean can be made in PART or in FULL.

When PART of a loan is settled the monthly installments are reduced. Interest is only charged for the actual time that a loan, or any part of it, is held by the borrower-it being reduced as the loan is repard.

Members are extended every facility and encouragement to return loans and pay for their property. Loans now in force amount to \$1.268,000. The EQUITABLE is a

purely-co-operative saving and loaning asset terms, how to proceed, &c., can be obtained upon application at the office, Equitable building, 1003 F st. n. w.

APPLAUDED BY THE CONFERENCE. Methodists Approve the Stand of Cleveland

and Noble on the Sunday Concert. Special Dispatch to The Evening Star. HAGERSTOWN, MD., March 2-Bishop New-man opened the second day's session of the Baltimore conference of the M. E. Church with a lecture to the young men on methods of study.

The devotional exercises were conducted by Rev. C. Herbert Richardson of Baltimore. Presiding Elder H. R. Navlor of the Washing ton district pesented a memorial from Hamline Church, Washington, asking that the parchments of Philip A. Crist, a former local preacher, be restored. Rev.J. Wright protested against the restoration of the parchments or even the ap-pointments of a committee to look into the case. He said that this claim had been made

twice before, in 1889 and in 1890, and has each time been disallowed. Bishop Newman added his voice in favor of a reconsideration of the case, and in courtesy to the bishop's wishes Mr. Wright withdrew his

the bishop's wishes Mr. Wright withdrew his objections.

The woman question, with which the church has been wreatling for the past four years, came up in the form of two vigorous protests against voting in accordance with the now famous Hamilton resolution which was adopted by the Omaha general conference of last May, and which proposes to admit woman to the general conference by indirection. The conference had voted on changing the restrictive rule relating to membership in the general conference, but a sufficiently large majority had not been obtained to make the change.

change.

This failure was due in some measure to a large number of the conferences failing to vote.

The amendment proposed to interpret the word "laymen" to mean either men or women.

Hamilton proposed a resolution by which br. Hamilton proposed a resolution by which the word "laymen" is interpreted to mean persons of either sex, and which provides that the lay representatives in general conferences must be males. A failure to carry this by three-fourths of the annual conferences and two thirds of the general conferences. conferences and two-thirds of the general con-ference will admit the women.

ference will admit the women.

Resolutions protesting against voting on the matter in this way were presented by Rev. Dr. Jno. F. Goucher, president of the Woman's College, and Rev. C. Herbert Richardson, and were made the special order for tomorrow. BEFUSED TO ADMIT MR. LANCELY. By an overwhelming vote of 121 to 17 the conference refused to admit Rev. John E. Lancely of Toronto, who had been invited to become paster of Mount Vernon Place Church, Baltimore.

Presiding Elder Edwards submitted Mr. Lancely's credentials and his application for his admittance. After these had been read Dr. Edwards moved his admittance. Dr. Edwards moved his admittance.

Vigorous speeches of objection were made on the ground that a private arrangement had been made between the congregation of Mount Vernon Place Church and Mr. Lancely, and that this was especially condemned by the constitution of the church.

"Had he come in to take his chances with the rest of us," said Rev. W. W. Davis, "we would not vote against him. The matter as it is is unmethodistical and will tend to break down our itinerant system."
